

2.0% Ca & 2.0% Mg
with Kelp

PLANT FOOD

PLANT DOCTOR®

SEACAL®

KELP-CALCIUM-MAGNESIUM

Net Weight: 23.7 lb. (10.8 kg) • Net Contents: 2.5 Gallons (9.4 L)

FOR USE IN ALL PLANT STAGES
MAY ENHANCE FRUIT & BUD EXPANSION

SEACAL® 2% Ca & 2% Mg Plant Food

Plant Doctor® SEACAL® is a blend of calcium, needed for cell growth, magnesium, needed for photosynthesis and fortified with sea kelp.

DIRECTIONS FOR USE • SHAKE WELL BEFORE USE

- Keep nutrient solution below 75° F. (24° C.) • Maintain nutrient solution pH between 5.5 – 6.5.
- Change nutrient solution every 7-10 days and top off with fresh water between nutrient changes.
- Keep nutrient solution aerated. • Shake well before mixing.
- Lessen the risk of overfeeding by knowing your strain's nutritional requirements and by maintaining proper ppm levels for your particular strain. Reduce nutrient strength if plants show signs of stress, or if growing in hot, arid conditions.
- After mixing always check your ppm and be sure to adjust pH to a range optimum for your plant strain and media.

RECIRCULATING AND DRAIN TO WASTE PROGRAMS — Start applications in the 2nd week of the Vegetative Stage and continue through the 8th week of Bloom Stage, dilute 1 tsp (5 ml.) per gallon water and apply as a root drench.

Not for use in organic crop and organic food production.

Warranty: Please review and follow the instructions for the intended use of the product as indicated on the label. Use contrary to label instructions may cause adverse consequences. Since Seller cannot assure that the product will be used consistent with the instructions provided, Seller makes no warranty, express or implied concerning the use of this product.

Guaranteed Analysis

Calcium (Ca) 2.00%
Magnesium (Mg)..... 2.00%

2.0% Water Soluble Magnesium

Derived from: Calcium acetate, Magnesium acetate

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS

Soil Amending Guaranteed Analysis:

1.83% Kelp Extract derived from Ecklonia maxima

F-1251
