

3-2-3

PLANT FOOD WITH
MOLASSES

PLANT DOCTOR®

SUGAR I.V.™

Net Weight: 24.8 lb. (11.2 kg) • Net Contents: 2.5 Gallons (9.4 L)

FOR USE IN VEGETATIVE & ALL FLOWERING STAGES

SUGAR I.V.™ 3-2-3 Plant Food

Plant Doctor® Sugar I.V.™ provides multiple benefits for both the root zone and the plant when nutrients are combined with molasses.

DIRECTIONS FOR USE • SHAKE WELL BEFORE USE

- Keep nutrient solution below 75° F. (24° C.) • Maintain nutrient solution pH between 5.5 – 6.5.
- Change nutrient solution every 7-10 days and top off with fresh water between nutrient changes.
- Keep nutrient solution aerated. • Shake well before mixing.
- Lessen the risk of overfeeding by knowing your strain's nutritional requirements and by maintaining proper ppm levels for your particular strain. Reduce nutrient strength if plants show signs of stress, or if growing in hot, arid conditions.
- After mixing always check your ppm and be sure to adjust pH to a range optimum for your plant strain and media.

RECIRCULATING SYSTEM — BLOOM STAGE: Apply weekly up to the 8th week of Bloom. Flush the final week with only Sugar I.V.™ diluted 1 tsp (5 ml.) per gallon of water.

DRAIN TO WASTE SYSTEM — VEGETATIVE STAGE: Week 2, blend ½ tsp.(3 ml.) per gallon of water. Week 3 and beyond, dilute 1 tsp. (5 ml.) per gallon of water and apply over the root zone. **BLOOM STAGE:** In all weeks of Bloom, dilute 1 tsp. (5 ml.) per gallon of water and apply over the root zone. Flush the final week with only Sugar I.V.™ diluted 1 tsp (5 ml.) per gallon of water.

Guaranteed Analysis

Total Nitrogen (N).....	3.00%
1.0% Nitrate nitrogen	
2.0% Urea	
Available Phosphate (P ₂ O ₅).....	2.00%
Soluble Potash (K ₂ O).....	3.00%
Iron (Fe).....	0.50%
0.50% Water Soluble Iron	
Manganese (Mn).....	0.05%
0.05% Water Soluble Manganese	

Derived from: Urea, potassium nitrate, phosphoric acid, manganese sulfate, ferrous sulfate.

ALSO CONTAINS NON-PLANT FOOD INGREDIENT

Soil Amending Ingredient:
42.0% Molasses (from fermented sugar cane)
58.0% Total Inert Ingredients
(Molasses added as microbial food)
